Identification of Claims Discussed

Claim 1

Identification of Prior Art Discussed

Allard (U.S. Patent No. 4,743,964) and Carollo (U.S. Patent No. 5,912,650)

Proposed Amendments

None

Principal Arguments and Other Matters

Allard either i) does not disclose the claimed inverting and display devices or ii) lacks the claimed inverting devices. The image generators of Carollo do not necessarily invert the images. Carollo does not disclose the claimed inverting and display devices.

Results of Interview

The Examiner has confirmed that the claim rejections by Allard have been overcome. The Examiner mentioned that he would take another look at the Carollo reference to confirm that the above arguments overcome the ground of rejection based on Carollo.
